Update in Clinical CARDIOLOGY

OCTOBER 10 – 12, 2018  BOSTON, MA

Under the direction of
Adolph M. Hutter, Jr., MD
Anthony Rosenzweig, MD
Rory B. Weiner, MD

Earn up to 22.50 AMA PRA Category 1 Credits™
22.50 ABIM MOC Points

Comprehensive updates, strategies, and practice recommendations to optimize patient care and outcomes

• Coronary Artery Disease
• Diabetes
• Biomarkers
• Valvular Heart Disease
• Congestive Heart Failure
• Dyslipidemia
• Atrial Fibrillation
• Ventricular Arrhythmias

• Advanced Cardiac Imaging
• Exercise and Heart Disease
• Thoracic Aortic Disease
• Adult Congenital Heart Disease
• Heart Disease in Pregnancy
• Cardio-Oncology
• Peripheral Arterial Disease
• Pulmonary Embolism

Register at Cardiology.HMSCME.com

This course sold out last year. Early registration to the 2018 program is strongly recommended.
Course Description

There is a persistent gap between the practice of cardiology and the guideline-recommended evaluation and therapy. In a time of continually changing information based on ongoing new research findings, the practicing clinician has a hard time maintaining an up-to-date knowledge base and, therefore, competency in these areas. As a result, the performance of the clinician frequently lags behind state-of-the-art practices. This course addresses this gap by providing an extensive review of clinical cardiology through didactic lectures, panel discussions, and cases emphasizing newer concepts of diagnosis, decision making, pharmacology and therapy in the areas of ischemic heart disease, valvular heart disease, cardiac arrhythmias, congestive heart failure and other more specific areas.

Harvard Medical School Faculty

The faculty is assembled from the best clinician-educators at Harvard Medical School and Massachusetts General Hospital and is designed to deliver the highest-quality educational experience:

- Teaching practical, effective clinical reasoning and approaches that enable you to practice state-of-the-art clinical cardiology
- Allowing ample time for participants to interact with faculty and to pose and get answers to your specific questions
- Providing the latest information in an engaging manner and clinically usable context so that you have knowledge you can “take home” and immediately apply to patient care

Course Directors

Adolph M. Hutter, Jr., MD, Professor of Medicine, Harvard Medical School; Founding Director, Cardiac Performance Program, Corrigan Minehan Heart Center, Massachusetts General Hospital

Anthony Rosenzweig, MD, Evelyn and James and Paul Dudley White Professor of Medicine, Harvard Medical School; Chief of Cardiology and Co-Director, Corrigan Minehan Heart Center, Massachusetts General Hospital

Rory B. Weiner, MD, Assistant Professor of Medicine, Harvard Medical School; Inpatient Medical Director, Corrigan Minehan Heart Center, Massachusetts General Hospital
Dear Colleague,

The strategies we employ and the options at our disposal to diagnose and treat patients with cardiovascular disease have advanced considerably in the past year. Update in Clinical Cardiology ensures attendees are current with these advances and how to incorporate them into daily practice to optimize patient outcomes.

The 2018 program offers you the opportunity to learn:

- Important medical and procedural advances for the management of common clinical problems such as coronary artery disease, heart failure, and valvular heart disease
- The latest transcatheter options and best practices to treat patients with severe valvular disease
- The new paradigms for care of specialized populations such as adults with congenital heart disease, cardiac patients with cancer, and athletic individuals
- The latest concepts of diagnosis, decision making, pharmacology and therapy in the areas of ischemic heart disease, cardiac arrhythmias, and congestive heart failure

The faculty is assembled from the best clinician-educators at Harvard Medical School and Massachusetts General Hospital. Designed to deliver the highest-quality educational experience, we place a premium on:

- Teaching practical, effective clinical reasoning and approaches that enable you to practice state-of-the-art clinical cardiology
- Allowing ample time for participants to interact with faculty and to pose and get answers to your specific questions
- Providing the latest information in an engaging manner and clinically usable context so that you have knowledge you can “take home” and immediately apply to patient care

As cardiologists and cardiovascular clinicians, we face the task of treating patients across the wide spectrum of cardiac disease. Our goal is to ensure that you are up to date with the latest information to diagnose and treat your patients in the best manner possible. We look forward to your participation. Boston in the fall is delightful, and we hope to see you then!

Sincerely,

Adolph M. Hutter, Jr., MD  
Anthony Rosenzweig, MD  
Rory B. Weiner, MD

Upon completion of this activity, participants will be able to:

- Apply newly acquired knowledge of cardiovascular disease in the care of cardiac patients

- Incorporate the principles of proper evaluation for cardiovascular disease into practice

- Determine the goals to be achieved in the care of cardiovascular patients and implement tools to achieve these goals

- Use diagnostic and therapeutic tools to treat patients with cardiovascular disease appropriately

Program changes/substitutions may be made without notice. To view the most up-to-date version of the course program, please visit the course website.

MOC Statement

Successful completion of this CME activity enables the participant to earn up to 22.50 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC points.

Learning Objectives

Upon completion of this activity, participants will be able to:

- Apply newly acquired knowledge of cardiovascular disease in the care of cardiac patients

- Incorporate the principles of proper evaluation for cardiovascular disease into practice

- Determine the goals to be achieved in the care of cardiovascular patients and implement tools to achieve these goals

- Use diagnostic and therapeutic tools to treat patients with cardiovascular disease appropriately

Participant Experience

“This is the best course in terms of current, state-of-the-art information and careful, thoughtful evaluation about how to apply it.”

“I now have a more critical eye about ordering stress tests and coronary screening tests for patients preoperatively.”

“Having attended this program, I am more confident treating pregnant patients with concomitant cardiac disease.”

“This course has influenced my practice in too many ways to mention! Among them: avoiding enteric coated aspirin, making better use of the guidelines for evaluation/stress tests, and making better decisions regarding DAPT as well as NOACs.”

“The clinically useful knowledge presented in this course, especially concerning syncope, cardiac markers, PE and AF was truly exceptional.”

“This program has updated my management of pulmonary HTN, PE and Coronary Artery Disease.”

“Cutting-edge information was presented in every lecture.”

“I follow the expert info/guidelines presented at this course, especially for DAT as well as anticoagulation duration for recurrent PE/DVT.”

“This is the best conference I have been to as far as overall quality of the speakers.”

“I have made changes to my practice in the current control of hypertension, lipidemias, and peripheral vascular disease.”

“The aspirin data supplied in this course really changed my practice on DAPT for post-PCI patients.”

“I count on and look forward to this conference every year to benchmark my practice and to stay current and skilled.”

**ACCREDITATION COUNCIL FOR CONTINUING MEDICAL EDUCATION**

The Harvard Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Harvard Medical School designates this live activity for a maximum of 22.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**NURSE PRACTITIONERS and REGISTERED NURSES**

For the purpose of recertification, the American Academy of Nurse Practitioners Certification Board and American Nurses Credentialing Center accept AMA PRA Category 1 Credit™ issued by organizations accredited by the ACCME (Accreditation Council for Continuing Medical Education). We would also suggest that learners check with their state licensing board to ensure they accept reciprocity with AMA PRA Category 1 Credit™ for re-licensure.

### Reasons to Attend

Updated guidelines for evaluation and care of patients with coronary artery disease, congestive heart failure and arrhythmias

The role of the cardiologist in diabetes management

State-of-the-art approaches for recognition and management of:
- Coronary artery disease
- Valvular heart disease
- Cardiomyopathy
- Arrhythmias

The new data on the impact of exercise on the cardiovascular system and the care of active patients

Improved management of cardiac patients with cancer and adult congenital heart disease

Improved management of pulmonary embolism and peripheral artery disease

Best practices for care of pregnant patients

Clinical application of recent scientific information to patient care

*There are many convenient and varied lunch options within a short walking distance of the course.*

Your tuition includes juice and coffee each morning, and morning and afternoon refreshment breaks. All course participants receive electronic copies of the course materials. You can purchase a printed copy of these materials at the time of online registration for $50.

Registration, Payment, Confirmation and Refund Policy

Registrations for Harvard Medical School CME programs are made via our secure online registration system. To register for this course, please visit the course website at Cardiology.HMSCME.com.

At the end of the registration process, a $5 non-refundable processing fee will be added to your registration, and you will have the choice of paying by check or credit card (Visa, MasterCard, or American Express). If you are paying by check (draft on a United States bank), the online registration system will provide you with instructions and a printable form for remitting your course fees by check. Postal, telephone, fax, and cash-payment registrations are not accepted. All fees shown in USD.

Upon receipt of your paid registration, an email confirmation from the HMS GCE office will be sent to you. Be sure to include an email address that you check frequently. Your email address is used for critical information, including registration confirmation, evaluation, and certificate. Refunds, less an administrative fee of $75, will be issued for all cancellations received two weeks prior to the start of the course. Refund requests must be received by email. No refund will be issued should cancellation occur less than two weeks prior. “No shows” are subject to the full course fee and no refunds will be issued once the conference has started.

Venue
Fairmont Copley Plaza
138 St. James Avenue
Boston, Massachusetts
1-617-267-5300

Accommodations
A limited number of rooms* have been reserved at Fairmont Copley Plaza. Please make your reservation at your earliest convenience—however, no later than September 17, 2018—by visiting the course website and clicking on the dedicated link on the Venue page. If you would like to make your reservation by telephone, please call 1-800-441-1414 by September 17 and specify that you are enrolled in this course to request the reduced room rate.

*Please note that the discounted rooms may sell out before the deadline.

Please do not make nonrefundable travel arrangements until you have received an email from our office confirming your paid registration.

Questions?
Call 617-384-8600 Mon-Fri 9am – 5pm (ET). Send e-mail to CEPrograms@hms.harvard.edu.
